CAREER OBJECTIVE

Recent B.Tech Computer Science and Engineering graduate (2026) with a Python full-stack internship and hands-on Django projects. Strong fundamentals in Python, Django/DRF, REST APIs, and SQL. Seeking a first full-time Python, Django, or backend developer role to build reliable, maintainable web applications within a mentored engineering team.

TECHNICAL SKILLS

Programming	Python (OOP, Exception Handling, File I/O, Comprehensions), JavaScript
Frameworks	Django (ORM, MVT, Migrations, Class-Based Views)
APIs	Django REST Framework (Serializers, ViewSets, Authentication), RESTful APIs, Postman
SQL & Databases	SQL (Joins, Aggregate Functions, Window Functions, Views, Index, Sequence), MySQL, PostgreSQL, Oracle SQL
Front end	HTML5, CSS3, Bootstrap 5, Chart.js
Version Control & Tools	Git, GitHub, VS Code

PROJECTS

Finora – Django Expense Tracker
github.com/RekhapalliUmaSatyaSantosh/finora-expense-tracker

- Built a full-stack expense tracker with Django and PostgreSQL, including user registration, login, and password reset.
- Implemented income and expense CRUD with categories and date filters, plus monthly budgeting.
- Developed a Chart.js dashboard that visualizes income and spending.
- **Tech:** Python, Django, PostgreSQL, Chart.js

WeatherVerse – Django Weather Forecast Application
github.com/RekhapalliUmaSatyaSantosh/WeatherVerse

- Built a Django weather forecast application that retrieves data from a weather API and displays it for searched cities.
- Implemented city-based search and a responsive interface that renders weather details dynamically.
- **Tech:** Python, Django, Weather API

Persistent Enterprise Network Attack Detection – Academic Machine Learning Project
github.com/RekhapalliUmaSatyaSantosh/Intellegent-architecture-for-detecting-APTs

- Developed a Django web application that detects Advanced Persistent Threats in enterprise network data using machine learning classification.
- Trained and compared Random Forest, SVM, KNN, and XGBoost classifiers on the DARPA intrusion detection dataset using Scikit-learn.
- **Tech:** Python, Django, Scikit-learn, Random Forest, SVM, KNN, XGBoost

INTERNSHIP

Python Full-Stack Developer Intern | Edu Skills Academy (Internship) Jul 2025 – Sep 2025

- Developed a Django web application with user authentication and full CRUD operations on a MySQL database.
- Reduced page data load time by **20%** by optimizing SQL queries.
- Integrated RESTful APIs between the Python backend and JavaScript frontend, enabling dynamic page updates without full reloads.

EDUCATION

B.Tech, Computer Science and Engineering | Eluru College of Engineering and Technology | CGPA: 7.65 2022 – 2026
Intermediate (MPC) | Aditya Junior College | 68% 2020 – 2022
SSC | Aditya Public School | 97% 2020

CERTIFICATIONS

Python Programming – IBM | Python Essentials – Cisco | Oracle Cloud Infrastructure 2025 – Oracle
